

Connect to the Internet

Get online using your phone's data connection or Wi-Fi.

Using a data connection

It's simple. When you turn your phone on for the first time, it should connect automatically to your mobile operator's data service.

Using Wi-Fi

1. From the Home screen, press  and then tap **Settings > Wireless & networks**.
2. Select the **Wi-Fi** check box to turn Wi-Fi on.
3. Tap **Wi-Fi settings** and then choose a Wi-Fi network to connect to.

Surf the Web

Your phone makes it fun and easy to browse the Web on the go. Enjoy multi-window browsing, and see text on web pages resize and wrap automatically as you zoom in and out. You can even quickly look up stuff on Google or Wikipedia just by highlighting it.

From the Home screen, tap  > **Internet** and start surfing.

Keep in contact

In the People app, you'll see your contacts from your Google Account, Facebook®, and even your Exchange ActiveSync® account if you're signed in to these accounts on your phone. Aside from their contact details, you'll also see their status updates and birthday reminders if they're your Facebook or Twitter™ friends.

From the Home screen, press  and then tap **Settings > Accounts & sync** to sign in to your accounts.

Adding a new contact

1. From the Home screen, tap  > **People**.
2. Tap **Add contact**.
3. Enter the contact information in the relevant fields.
4. Tap **Save**.

Editing a contact

1. From the Home screen, tap  > **People**.
2. Tap a contact you want to edit.
3. Under the Options section, tap **Edit**, and then change the contact information in the relevant fields.
4. Tap **Save**.

My Contacts Backup

My Contacts Backup is provided to you as a free service, so if your phone is lost or stolen, you can easily transfer your numbers to a new phone.

Setting Up My Contacts Backup

1. From the Home screen, tap  > **MyContactsBackup**.
You must accept the terms and conditions to proceed.
2. You'll be prompted to create a PIN (password).
If you have already used My Contacts Backup on another phone and want to download existing contacts to your current phone, you must use your existing PIN.
3. If you have existing contacts stored online, you'll be prompted to download contacts to your phone.
If not, you'll be prompted to back up any contacts stored in your phone online.
4. You can use your phone number and PIN to log into your account at the following URL to add and edit your contacts online:
<http://mycontactsbackup.uscellular.com>

Email

Set up one or more email accounts on your phone.

Gmail

If you signed into your Google Account, you'll be able to send and receive Gmail messages. From the Home screen, just tap  > **Gmail**.

Mail

Use the Mail app to set up and manage your other personal email accounts (POP3 or IMAP). You can also set up your work email account (Exchange ActiveSync®).

1. From the Home screen, tap  > **Mail**.
2. On the Choose a mail provider screen, tap **Other (POP3/IMAP)**. If you don't see this screen, press  and tap **More > New account > Other (POP3/IMAP)**.
3. Enter your **Email address** and **Password**.
4. Follow the onscreen instructions to finish setting up your email account.

In the Mail app, you can check your email messages just in one place without having to switch to different accounts. Just choose the All accounts inbox. Email messages are color coded so you can easily distinguish which email accounts they belong to.

Snap, tag, and share

It's easy to share photos you've snapped with the camera on Facebook and other social networks. Before uploading, you can give it a title and then tag it for all your friends to see.

1. From the Home screen, tap  > **Camera**.
2. Point the camera at your friends and tap  to take the photo.
3. Tap  and then tap **Facebook for HTC Sense**.
4. Enter a caption if you want and then tap **Tag this photo**.
5. Tap anywhere near a friend.
From the list that shows, select the friend's name.
6. When finished tagging the photo, tap **Done**.

7. Tap **Upload**.
8. Select which album to upload to and set privacy settings for the uploaded photo.
9. Tap **Done**.

Android Market™

Android Market is the place to go to find a variety of free and paid apps for your phone.

1. From the Home screen, tap  > **Market**.

2. Browse or search for an app.
3. Tap an app that you like.
Read the app's description and reviews to make sure the app is compatible with your phone.
4. To download the app, tap **Free** (for free apps) or the price shown below **Buy** (for paid apps).
5. If you agree to the conditions, tap **OK** to begin the download.

If you chose a paid app, you'll be redirected to the Google Checkout™ screen.

Connect a Bluetooth® headset

Listen to music or have hands-free conversations over a Bluetooth headset.

1. From the Home screen, press  and then tap **Settings > Wireless & networks > Bluetooth settings**.
2. Select the **Bluetooth** check box to turn Bluetooth on.
3. Make sure that your Bluetooth headset is discoverable so that your phone can find it.
Refer to the instructions that came with your headset to find out how to set it to discoverable mode.
4. Tap **Scan for devices**.
Your phone will then search for Bluetooth devices within range.
5. When you see the name of your headset, tap it.
Your phone will then try to pair with the headset automatically.
If automatic pairing fails, enter the passcode supplied with your headset.

Your Navigator Deluxe

With Your Navigator Deluxe, get all of the features of an advanced car navigation system on your phone with voice turn-by-turn navigation enabled by GPS. Search for any destination including gas stations, ATMs, restaurants, and more. Get detailed maps of any location.

First things first

In order to use Your Navigator Deluxe, you must first turn on your phone's location and GPS settings.

1. From the Home screen, press  and then tap **Settings > Location**.
2. Make sure the **Use wireless networks** and **Use GPS satellites** check boxes are both selected.
3. Tap **Location setting**. Make sure the **LOCATION ON** option is selected.

You can now start using Your Navigator Deluxe. From the Home screen, tap  > **Your Navigator Deluxe**.

What you can do in Your Navigator Deluxe

- Get turn-by-turn direction to a street address, airport, a contact's address, and more.
- Search for nearby businesses, the cheapest gas prices and more.
- See where you currently are located on a map and what traffic is in the area.

Your HTC Wildfire S Quick guide

For the complete user guide and other helpful resources, go to htc.com/us/support. Please also read the Safety and regulatory guide that's included in the box.
U.S. Cellular® Customer Care: 1-888-944-9400

Before you do anything else, please read this

Charge the battery

The battery in your phone hasn't been charged yet. While your phone is charging, it's important that you do not remove the battery pack. Doing so can damage your phone. Also, please don't try to take your phone apart. (If you do, it may invalidate your warranty.)

Choose a rate plan wisely

Your phone can use up a lot of Internet bandwidth really quickly. Before you use your phone, we strongly recommend that you talk to your mobile operator about data rates.

Using data services while roaming will be costly. Check with your mobile operator for data roaming rates before you use data roaming.

Know about privacy laws

Some countries have strict laws about how and when you can record phone conversations. It's a good idea to find out what the laws are where you live before you use your phone's recording feature.

And finally, a few important words from our legal team (LIMITATION OF DAMAGES)

To the maximum extent permitted by applicable law, in no event shall HTC or its affiliates be liable to you, any user, or third party for any indirect, special, consequential, incidental or punitive damages of any kind, arising in contract, tort, or otherwise, including, but not limited to, injury, loss of revenue, loss of goodwill, loss of business opportunity, loss of data, and/or loss of profits, regardless of the foreseeability thereof or whether HTC or its affiliates have been advised of the possibility of such damages. And in no event shall the total liability of HTC or its affiliates exceed the amount received from you, regardless of the legal theory under which the cause of action is brought. The foregoing does not affect any statutory rights which may not be disclaimed.

Get to know your phone

Before you turn on your phone

Get everything in order before you press the POWER button.

Removing the thin film from the battery

1. With your finger, open the back cover from the small opening near the POWER button.

2. Take the battery out and remove the thin film that's wrapped around it.

Replacing the battery and back cover

1. Insert the battery (with its exposed copper contacts first) into the battery compartment.
2. Press the bottom part of the back cover first by aligning into the openings located at the bottom part of the back of the phone.
3. Press the sides and the top part of the back cover down to lock the cover into place. You will hear a click when the back cover is locked in place.

Charging the battery

Use the supplied power adapter and USB cable to charge your phone.

Where's the microSD card?

The microSD card is already inserted into your phone. If you need to remove the microSD card, just slide it out. To reinsert, push it in until it clicks into place.

Set up your phone

The first time you turn on your phone, you'll be guided to transfer contacts to your new HTC phone using Bluetooth, set up your email and social network accounts, and more. Be sure to sign in to your Google™ Account so you can use Google apps such as Gmail™ and Android Market™ on your phone.

Make your call

1. On the Home screen, tap **Phone**.
2. Enter the number or contact you want to call, and then tap **Call**.
3. To hang up, tap **End call**.

Send a message

1. From the Home screen, tap **Messages**.
2. On the All messages screen, tap **Compose message**.
3. Enter the recipient in the **To** field.
4. Tap "Add text", and then enter your message.
5. To include a photo, video, or other information, tap **Attach** and choose what you want to attach.

This automatically turns your text message into a multimedia message.

6. Tap **Send**.

Set the ringtone and volume

Change the phone ringtone and volume to suit you.

Choosing a ringtone

1. From the Home screen, tap **Settings** > **Ringtone**.
2. Choose a ringtone you want to use and tap **Apply**.

Adjusting the volume

- To adjust the volume to your desired level, press the **VOLUME UP** or **VOLUME DOWN** button on the left panel of your phone.
- From the Home screen, you can also press **Settings** > **Sound** > **Volume** to adjust the ringer, media, alarm, and notification sound volume separately.

Your Home screen

It's easy to personalize the HTC Wildfire S with colorful skins, useful widgets, and notification sound sets that you can download directly to your phone. Your Home screen has seven panels that you can customize. (Just pinch the Home screen to see all seven.)

Personalize your phone

Customize your phone just the way you want it. From the Home screen, tap **Settings** and choose what to customize.

You can:

- Change the wallpaper, skin, widgets, apps, or shortcuts.
- Set your favorite tune as your ringtone. You can also create your own sound set so you can have different sounds for the ringtone, alarms, and notifications.
- Personalize the lock screen.

Choose from a selection of active lock screens that show live updates such as weather and stocks. You can also choose the apps you want for your lock screen.

Lock screen

When your phone becomes idle, it turns the display off and goes to sleep mode to save battery power. Simply press **POWER** to turn the display back on.

Press the bar on the lock screen and then slide your finger down to unlock the screen or answer an incoming call.
